

## UHIN PRACTICE MANAGEMENT COMPATIBILITY LIST

Each Practice Management vendor on this list is compatible with the UHIN network, according to the information they provided to UHIN. This list is a start, but it is not all inclusive: some compatible vendors may not have replied. Remember that there may be multiple software versions for each product, and not all versions are guaranteed compatible. Make sure to ask which versions can connect to UHIN (compatibility criteria are below). The key will assist you in navigating the handout. Please contact UHIN (877-693-3071) with any questions.

**KEY**  
**Bolded font indicates the preferred method(s) of contact**  
 Extra services are designated by numbers:  
**1** = Claim Status Inquiries  
**2** = Eligibility Inquiries  
**3** = Automatic posting of 835 remittances  
**4** = Electronic Health Record Capabilities

Interested in a software not on this list? Ask the vendor these questions to determine compatibility:

1. Does the software allow you to send X12 files to a network of your choice?
2. Can the software accommodate a full Trading Partner Number as the Sender/Receiver ID? (HT00XXXX-XXX)  
*If they answer "yes" to both of these, you are compatible. The following is recommended, but optional:*
3. Can the software put each payer's claims into separate envelopes?
