

Utah Health Information Network

Job Description: Product Designer

Posting

The Utah Health Information Network (UHIN) is on a mission to create a more connected health care system that drives innovation, collaboration, and inclusiveness. At UHIN you can help make a significant difference in the world of healthcare by providing solutions to both improve the care patients receive and reduce the costs of providing those services to health care professionals.

Position Summary

UHIN is looking to employ a passionate Product Designer focused on designing user centric experiences. The Product Designer is a core member of the Clearinghouse Product Team and is essential in crafting product experiences that empower our clients and UHIN to realize its vision and mission.

The environment is fast-paced, energetic, high growth, and highly collaborative. In this role, you will actively participate in developing the product in a way that creates immense value for UHIN's customers. You will seek opportunities to be strategic, produce results, and receive recognition for outstanding work.

Primary Expectations/Responsibilities

This role will be responsible for:

- Defining the design strategy for UHIN's Clearinghouse solutions.
- Thorough understanding of UHIN's customers and their Jobs-To-Be-Done.
- Conducting user testing and synthesizing their reactions and feedback.
- Create mockups (low or high fidelity) and prototypes to share in Discovery with users to validate Product ideas.
- Analyze current user usage data to improve confusing or sub-optimal user experiences.
- Active participation with cross-functional Product Team in daily stand ups, backlog refinement, discovery, retrospective, review, and planning meetings.
- Design ahead of product engineers to help Product Manager have user stories in a "Definition of Ready," state.
- Work with Product Team to deliver roadmap in ways that meet the needs of the business.

Qualifications
